

Session 4

Diving Deeper

Social Media is a powerful tool in our culture. This platform is used for many purposes - including advertising, sharing opinions, persuasion and voicing complaints.

Could this tool be equally powerful if used to share positive messages?

Take some time to consider a positive message that you would like to share with the world. Can you think of something that would show compassion and give voice to your willingness to affirm, honor and be present with others?

**Post your message - and include
#westpresby and
#illustratedministry so that other
Compassion Campers can see your
post!**
